SUBJECT (Descriptive title. Use individual reports for separate subjects)			
Compared with a star only 10 times or more larger.			
<p>SUMMARY (Give summary which highlights the salient factors of narrative report. Begin narrative text on AF Form 112a unless report can be fully stated on AF Form 112. List inclosures, including number of copies)</p> <p>The sighted object was a brilliant white light, it appeared to be unevenly round in shape and could be compared to a star except it was approximately ten times or more larger. Color was brilliant white with only one object in appearance. Course of object was West to East directly overhead, angle of elevation 50°, azimuth 90°, keeping steady West to East course. Object appeared in my sight for approximately forty five minutes and was visible from the ground and also sighted through binoculars. Zulu time date: 2330Z at dusk. The observer was located Latitude - 41° 43' N, Longitude 72° 39' W. No other observers, other than myself, at this location. Weather conditions were excellent with excellent visibility, weather station facilities were not available. Ceiling was unlimited. Nearest air traffic was at Brainard Field and this consisted of only light private planes.</p>
